Course 1: SCALE TO CEO - Take Your Organization To The Next Level with Tim and Lauren Johnson

Understand what it means to truly be the CEO and Leader of your organization. In this impactful presentation, Tim & Lauren will share how to take your practice from good to exceptional. Leave with strategic steps for growing and scaling your organization. Learn actionable knowledge of how to maximize your team, operations, and financials to compound your practice growth. Gain the blueprint for scaling your business and creating more time for you as the business owner.

By the end of this course, the participant will:

- Understand the difference between growing and scaling
- Develop four times absolutes to scale
- Create scale as an individual, with your team, and as an organization

Course 2: Clinical Description for Complex Restorative Cases with Dr. Tom McDonald

Modern dentists have developed vast knowledge in esthetics, occlusion, and restorative dentistry. However, when presented with a complex case many clinicians have difficulty gaining patient acceptance, deciding where to start, and the proper sequence for treatment. Dr. McDonald will outline a time-tested system for examination, diagnosis, and treatment sequencing of complex esthetic-restorative cases. This approach is more technically achievable for the clinician, lab technician, and can increase patient acceptance.

By the end of this course, the participant will:

- Learn how to sequence a complex case in the proper order
- Appreciate the importance of segmental restoration for clinical predictability
- Learn why the best dentists in the world have the highest level of case acceptance.
