A Secret Pay Raise: How Embezzlers Think and Act

While many dental teams are loyal and honest, it only takes one desperate individual to financially ruin a dental practice. While internal controls are useful and important, they have limitations and may not be as effective as the doctor thinks. Many doctors fail to discover fraud and embezzlement until significant damage has occurred. Dr. Little shares some of his embezzlement cases as teaching tools that take you into the mindset of an embezzler.

Because specific fraud methodologies are openly discussed and demonstrated, this presentation is appropriate for DENTISTS ONLY.

By the end of this presentation, the dental professional will be able to:

- Recognize the profile of a typical embezzler.
- Understand what leads to embezzlement in dental offices.
- Analyze the strengths and limits of internal controls strategies.
- Identify the additional actions doctors need to take beyond internal controls.
- Gain access to a behavioral assessment to identify red flag behaviors.

**DENTIST
ONLY!**

Dr. Pat Little

*Executive Coach and Consultant
at Fortune Management*

Speaker: Dr. Pat Little

As both a dentist and accountant, Dr. Pat Little brings a unique blend of skill and experience in executive coaching and financial risk management. He integrates his business experience with over thirty years of varying dental experiences including starting two private practices from “scratch.”

Dr. Little is an Executive Coach and Consultant with Fortune Management where he assists dentists, and their team members achieve clinical and business success. He also provides fraud and embezzlement consulting through Prosperident.
